

## **LAW of LIFE #2: The Law of Opportunity**

(SEVEN ways on how to comprehend the **REALITY** of human situation)

**R**obust opportunity is always present; some people take advantage of it and are successful, while others battle against LIFE and call failure unfairness or bad luck. It is not that someone who has failed is unlucky, it is that they are not within the Law, they do not know it or they do not know how to be governed by it, and they violate it unknowingly. It is not that someone who is successful is lucky, it is that they are FLOWING with the Law, even if they do not know it. A wise person *FLOWS with the Law knowingly* and everything just goes well for them.

**E**ndowed, affluent and successful people do not place limitations on what LIFE offers them. For example, they accept a job offer even if the function seems difficult to perform, even if it is poorly paid, even if it takes a lot of effort, even if initially they do not know how to do it. They seize this chance and turn it into a real opportunity; **WHICH IS TO LEARN**. Listen to English philosopher, statesman, and lawyer Francis Bacon (1561 - 1626): “For all knowledge and wonder (which is the seed of knowledge) is an impression of pleasure in itself.”

**A**ffirmatively, if what we do, say and think is not consistent, we create a disorder in the FLOW of the Universe and everything is BLOCKED for us. If we rebel against our function and we do not VALUE it, resources are BLOCKED, in the same way as if we refuse to receive because we think we do not deserve it or we feel guilty. If we do adapt to where we live and we try and find another function in a different city or different country and everything becomes difficult, the best thing is to give up the idea of leaving to get out of the BLOCK, and decide instead to adapt to where we are.

**L**ucidly, another reason why resources may become BLOCKED is because we interfere in other people's destiny and “play the good guy” by paying someone else's debt, for example. That intention goes against the Laws of LIFE, which will BLOCK us for trying to interfere. **ONLY BY UNDERSTANDING CAN WE CLEAR THE WAY**. Just as the Law of Warning helps us avoid unnecessary problems in LIFE, the Law of Opportunity offers us the possibility of finding great satisfactions. Both Laws are recognized in the small, subtle details of LIFE.

**I**n all perspectives, many people reject opportunities because they mistakenly think: “This is not for me, I don't like it, it's not my turn, there's not a good atmosphere, there's no motivation, I'm not appreciated, I can't stand it anymore, etc.” And in that way they miss the best opportunities that LIFE offers them. An opportunity may present itself with simple signs like, for example, someone asking us a favor, our boss telling us to do a job we have never done, or someone we do not know giving us a card of someone who can help us.

**T**aking advantage of the OPPORTUNITY involves doing whatever we decide to do with all our ENERGY and LOVE. It is passionately seizing the CHANCE as though it were the most important DUTY in our lives. This means ardently grabbing the PROSPECT as though we are performing it for the person we LOVE the most, without regard to the KIND of work it is, or WHERE we do it, or WHO we are doing it for mattering at all. In this way we will put the Law in our FAVOUR. Consequently, the result in our lives may be surprising!

**Y**es, let us consider someone had made great efforts to finance his degree in psychology, but could not find a job as a psychologist. One day he was offered a very lowly job. Little by little his workmates began to tell him their problems and they found his advice very useful. It seemed unfair for him not to be paid for doing this and that the company psychologist did not resolve the cases. He continued to work with enthusiasm, helping everyone who was sent to him free of charge. Magically, the psychologist handed in her resignation and he was hired to take her place.
